

SAFETY DATA SHEET

■ V4 in accordance with Regulation (EC) 1907/2006 (REACH) amended with Commission Regulation(EU) 2015/830 ■

■ V4 – amendments in this revision ■

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING			
1.1 Product identifier			
Trade name	NITROGEN LIQUID, TECHNICAL GRADE		
EC number:	231-783-9		
REACH registration number	Nitrogen is exempted from Registration obligation (Annex IV of REACH)		
CAS number:	7727-37-9		
CLP notification number:	02-2119683711-35-0000		
NEOCHIM PLC code	10-02		
1.2 Relevant identified uses of the substance or mixture and uses advised against			
Uses: agent for freezing cooling and heat transfer, a preservative of products etc.			
Uses advised against: No information available			
1.3 Details of the supplier of the safety data sheet			
Manufacturer:	NEOCHIM PLC		
Address:	East Industrial Zone, Himkombinatska Str. 6403 Dimitrovgrad, Bulgaria		
Tel.;fax:	+359 391 65 205; +359 391 60 555		
URL website:	http:// www.neochim.bg		
Email:	neochim@neochim.bg		
Company e-mail for SDS	pto@neochim.bg		
1.4 Emergency telephone number			
National Toxicology Center - Pirogov	+359 2 915 44 09	24/24 h	7/7 d
NEOCHIM PLC	+359 2 809 20 30	24/24 h	7/7 d
SECTION 2: HAZARDS IDENTIFICATION			
The most important adverse effects: Colorless, extremely cold liquid, odorless. Danger of cryogenic burns when used improperly. In depressurization this liquid evaporates very quickly, which can led to a glut of air and a serious risk of suffocation in indoors due to lack (deficit) of oxygen. Necessary level of oxygen for normal breathing is 19.5%.			
2.1 Classification of the substance or mixture			
■ V4 Classification in accordance with Regulation 1272/2008 (CLP) and its amendments at the date of the issue of the document ■.			
Gases under pressure: Refrigerated liquefied gas, H281 - Contains refrigerated gas; may cause cryogenic burns or injury			
2.2 Label elements			
■ V4 Labelling in accordance with Regulation 1272/2008 (CLP) and its amendments at the date of the issue of the document ■.			

Hazard pictogram(s):		
Signal word		Warning
Hazard statement(s):	H281	Contains refrigerated gas; may cause cryogenic burns or injury
Precautionary statement(s):	P282 P336 P315 P403	Wear cold insulating gloves face shield, eye protection. Thaw frosted parts with lukewarm water. Do not rub affected area. Get immediate medical advice/attention. Store in well-ventilated place.
2.3 Other hazards		
Not known		
SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS		
3.1 Substances		
CAS №	Name	Content, % (w/w)
7727-37-9	Nitrogen	min 99.5
SECTION 4: FIRST- AID MEASURES		
4.1 Description of first aid measures		
- following eye contact:	Immediately rinse the effective eye with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do. Seek medical advice if irritation develops and persists.	
- following skin contact:	In case of frostbite soak the place in warm water and hold so 20 to 40 minutes. DO NOT USE HOT WATER. Immediately seek medical help.	
- following ingestion:	Not considered a potential route of exposure.	
- following inhalation:	Immediately move the casualty to fresh air. If not breathing apply artificial respiration. If breathing is difficult apply oxygen. Seek medical advice immediately.	
4.2 Most important symptoms and effects, both acute and delayed		
Due to lack of oxygen, nitrogen inhalation can cause dizziness, vertigo, nausea, and loss of coordination. Prolonged inhalation can lead to unconsciousness.		
4.3 Indication of any immediate medical attention and special treatment needed		
Give oxygen if breathing is difficult. Implement general supportive measures and treat symptomatically.		
SECTION 5: FIRE - FIGHTING MEASURES		
5.1 Extinguishing media		
Suitable extinguishing media:	Use appropriate extinguishing media for surrounding fire.	
Unsuitable extinguishing media:	Not applicable (nitrogen is not flammable and does not support combustion)	

5.2 Special hazards arising from the substance or mixture

The heat from the fire can lead to a rapid increase a pressure in the cryogenic vessels, which can cause their destruction, accompanied by explosion. Move if it is safe or cool cryogenic vessels by spraying water from a safe distance.

5.3 Advice for firefighters

Heat resistant personnel protective equipment, gloves, boots and self-contained breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Immediately evacuate personnel not occupied with firefighting. Stop the leak if safe to do so. Isolate every releasing bottle. Eliminate all possible sources of ignition and provide maximum ventilation resistant to explosion. Monitor oxygen level. Personal protection equipment that should be available are: gloves, safety goggles, personal mask.

6.2 Environmental precautions

Avoid uncontrolled release into the environment.

6.3 Methods and material for containment and cleaning up

Provide adequate ventilation.

6.4 Reference to other sections

See section 8 for personal protective equipment and section 13 for waste disposal.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Do not allow liquid nitrogen to get into eyes, on skin or clothing. Never let unprotected part of your body to touch not insulated pipes or vessels containing cryogenic fluids. The flesh will adhere to extremely cold metal and will tear when trying to separate. Always storage and handling of cryogenic vessels upright. Do not drop, do not turn or do not roll containers for cryogenic liquids. Open the valve slowly. Close the valve of the cryogenic vessel after each use. Keep the valve closed even when empty.

7.2 Conditions for safe storage, including any incompatibilities

Store and use in conditions of adequate ventilation. Store at a temperature not higher
 ■ V4 50 °C ■. Do not store in confined spaces. Cryogenic vessels are equipped with a valve for reducing the pressure and a pressure valve for controlling the pressure. Under normal conditions these containers will periodically released product. Use suitable devices for reducing pressure in systems and pipes in order to prevent the increasing of pressure. The liquid in the container can generate extremely high pressures when evaporated by heating.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

Regulated occupational exposure limit values:	Nitrogen is not classified as hazardous substance. No official data available for occupational exposure
-----------------------------------------------	---------------------------------------------------------------------------------------------------------

8.2 Exposure controls

Appropriate engineering controls:	Providing adequate ventilation is good industrial practice. Do not release large quantities of the substance in confined spaces. Pressure systems should be periodically checked for omissions.
-----------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Environmental exposure controls:	The product does not affect the environment.
----------------------------------	----------------------------------------------

Individual protection measures, such as personal protective equipment

Respiratory protection:	Gas filter (EN 14387 is recommended)
Hand protection:	Cold insulating gloves
Eye protection:	Chemical goggles (EN 166 is recommended)
Skin and body protection:	Working clothes

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance:	Colourless, clear liquid that evaporates in a colourless gas
Odour:	Odourless
pH	Not applicable
Melting/Freezing temperature:	- 210°C
Boiling temperature:	- 196°C
Flash-point:	Not applicable
Flammability:	Non flammable
Explosive properties:	Not explosive
Oxidizing properties:	Not oxidizer
Vapour pressure:	Not applicable
Relative density, gas (air = 1):	0.967
Solubility in water at 20°C and 1bar :	20 mg/l
Partition coefficient n-octanol/water:	Not applicable
Viscosity:	Not applicable
Conductivity:	0,02598 W/(m K)

9.2 Other information

Critical temperature: -146.9°C
Critical pressure: 34 bar

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

Stable under recommended storage and handling conditions (see section 7, handling and storage).

10.2 Chemical stability

Stable under recommended storage and handling conditions (see section 7, handling and storage).

10.3 Possibility of hazardous reactions

There are not known hazardous reactions.

10.4 Conditions to avoid

High temperatures and confined spaces.

10.5 Incompatible material

Lithium, titanium and ozone

10.6 Hazardous decomposition products

None	
SECTION 11: TOXICOLOGICAL INFORMATION	
11.1 Information on toxicological effects	
Not known toxicological effects of this product	
SECTION 12: ECOLOGICAL INFORMATION	
12.1 Toxicity	
Nitrogen is not toxic and does not pollute the soil and water. It is an ingredient of the air	
12.2 Bioaccumulative potential	
The product does not show any bioaccumulation properties.	
SECTION 13: DISPOSAL CONSIDERATIONS	
Waste treatment methods:	Do not discharge into any place where its accumulation could be dangerous.
Package waste disposal:	Dispose the packaging of the product in accordance with the requirements of local authorities, taking into account the characteristics of the packaging material.
SECTION 14: TRANSPORT INFORMATION	
UN No.	1977
Labelling ADR	 2.2: Non flammable, non toxic gas
ADR/RID Hazard identification number:	22
Proper shipping name:	NITROGEN, REFRIGERATED LIQUID
ADR Class:	2
ADR/RID Classification code:	3A
Packing group:	P203
SECTION 15: REGULATORY INFORMATION	
15.1 Safety, health and environmental regulation/legislation specific for the substance or mixture:	
EU regulations	Regulation EC 1907/2006 (REACH), Regulation EC 1272/2008 (CLP), Directive 98/24EC * Regulations / legislation and amendments to the date of issue of the document are indicated
15.2 Chemical Safety Assessment	Does not required for this product

SECTION 16. OTHER INFORMATION

Indication of changes: Changes of the last version are highlighted with **■ V4...■** . This version replaces all previous versions.

The information above is on the basis of our knowledge about the product and represents the data currently available to us at the moment of safety data sheet issue. This document is intended as guidance for the appropriate precautionary handling with the product by a properly trained person using this product, and does not legally bind in no way manufacturer with guarantee for specific properties, qualities and applications.

Neochim PLC does not grant, guarantee or implies any warranties of merchantability, fitness for a particular purpose with respect to the information set forth herein or the product to which the information refers.

Neochim PLC does not carry any liability for damages resulting from the product use or reliance upon this information, data and recommendations for it. Users are responsible to make their own investigations to determine the suitability of the information and the product for their particular purposes, and to comply with applicable laws.
